### **DETAILED ACTION**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William S. Wang on 08/08/2006 at 4:15 PM EST.

The application has been amended as follows:

In the Specification:

Page 50 line 18, " X " has been changed to – Y --.

Page 50 line 19, " X " has been changed to – "Y" --.

Page 50 line 21, " X " has been changed to – "Y" --.

In the Claims:

Claims 1-8 and 18-40 have been cancelled.

### ***Allowable Subject Matter***

2. Claims 9-17 are allowed.
3. The following is an examiner's statement of reasons for allowance: Applicants definition of duty cycle (lines 7 and 8, claim 9) as the ratio of the combined length of food to the length of the lane, in conjunction with a step requiring that the duty cycle be *measured* (step 'b', claim 9) is not found in the prior art of cutting devices. Transverse

Art Unit: 3724

slicers are well known, and many control methods and systems are known for altering blade parameters based on a number of workpiece parameters, none of which renders obvious the use of a duty cycle measurement in conjunction with a transverse slicer. Typical transverse slicers have de facto duty cycles, based on a steady state of operation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Beamer; Spooner et al.; Cogan et al.; Anders et al.; Pegoraro; Bucks; Sigurdsson et al.; Wattles et al.; Sandberg et al.
